PRESS RELEASE-For Immediate Publication

AMESBURY LOCCA names IMLSS as Access Control Distributor in 16 States in Western US!

Amber Grayson, Director of Sales & Marketing for **Amesbury Locca** is pleased to announce **Intermountain Lock & Security (IMLSS)**, a well known and highly respected distributor as it's primary distributor in Western US. Together they are bringing some exciting new wireless technology to the locksmith marketplace! **Amesbury Locca** introduced its new line of stand-alone access control products at several of the "Security Products Conference & Expos" held by **IMLSS** in Denver, Salt Lake City, and Las Vegas recently. Locksmith's were excited to have the option of providing their customers remote access control, that's very easy to install and use. No computers or software! Just install an electric strike or mag-lock and plug it in! It's that easy. A master remote allows programming of extra remotes or allows you to delete them as well. Remote range is up to 150'! (Product names are: MULTI & ACCESS.)

Suitable for in-swing and out-swing entrance doors, wood, composite or metal, the new **Amesbury Locca** range of access control products can be used in conjunction with electronic strikes to allow instant access at the touch of a wireless remote button! The versatility of the product enables it to be fitted to a wide variety of doorframe profiles.

Introduced to meet the growing customer and market demand for aging-in-place, disability products, ease of use, and affluent living, coupled with the highest levels of security, the new **Amesbury Locca** access control range of products delivers all of these through innovative features that are constantly reviewed to bring even better remote entry systems and options to homeowners and business owners alike.

There's also a full range of high quality accessory products, including wireless remote intercom systems (Wireless intercom named: **CONNECTA**), with a 300' range for speaking and unlocking the door, and two styles of remote buttons.

Visit the IMLSS or Amesbury Locca websites for more details at: www.imlss.com or www.AmesburyLocca.com. Branch locations for IMLSS are located in Salt Lake City, UT; Denver, CO; Van Nuys, CA; Las Vegas, NV and Phoenix, AZ covering the states of WA, OR, CA, NV, NM, TX, CO, UT, ID, WY, MT, AK, HI, KS, OK and AZ.

MULTI or **ACCESS** and **CONNECTA**
